The Flexi-Panel™ ceiling system is stylish and functional. Flexi-Panel™ makes a design statement by elegantly diffusing room lighting while allowing easy 'hinged' access to the ceiling areas above.
FEATURES AND BENEFITS

- Easy installation - similar to traditional suspended ceiling systems
- Panels are available in a variety of colors and translucencies
- Clips are available in several finishes
- Clips can be installed to produce vertical curves
- Panel widths of 2' and thicknesses ranging from 8mm to 25mm
- 3'-3" Panels also available
- CC-1 per ASTM D-635
- Class A material per ASTM E-84 available
- Lightweight panels weigh less than 1lb/sf
- Panels easily hinge from either side allowing easy access to mechanicals above
